

The **Centre for Fostering** and **Adoption Support**

A unique support and therapy service
supporting adoption, permanency and fostering

A Guide to Our Services

About us

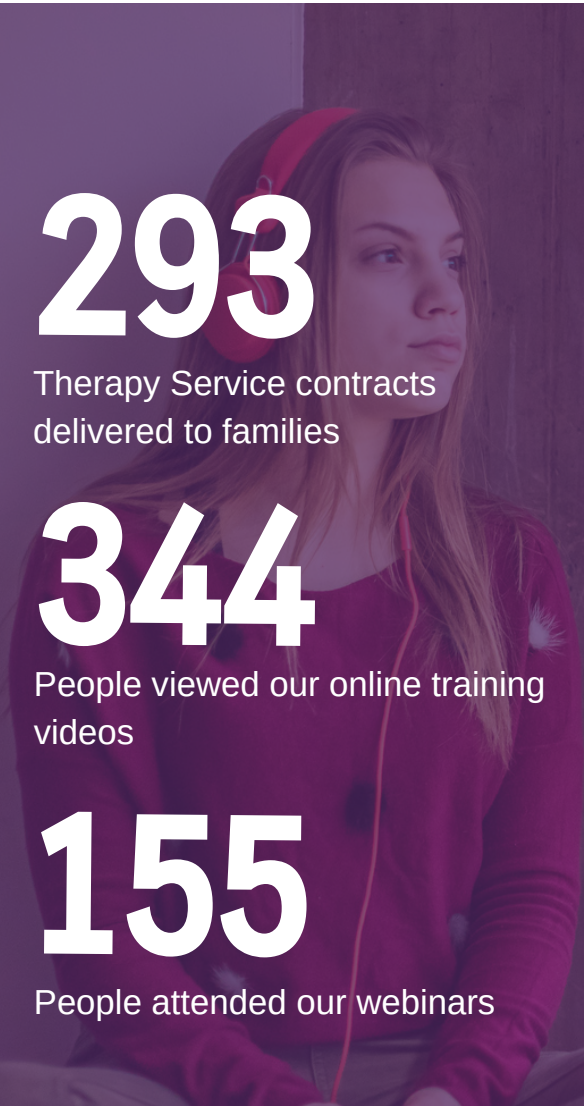

The Centre for Fostering & Adoption Support (CFAS) is a unique support and therapy service supporting adoption, foster care and permanency. The centre is delivered by five times Outstanding rated, children's charity and voluntary adoption agency, Adoption Matters.

The centre was established in 2014, initially supporting adopters, adopted adults and birth families, and expanded to meet the needs of permanency through kinship, foster care and special guardianship in 2019. In 2024, we further enhanced our offering to support our not for profit fostering service, Foster Care Matters.

We have worked with hundreds of local authorities, schools and other services to support children and families since 2014. Now, in 2025, CFAS supports over 50 local authorities across the country, offering support services in adoption, fostering, special guardianship, birth families and permanency through kinship.

Statistics

Our statistics for the period 1 April 2024 to 31 March 2025 are detailed below.

Packages of support were
delivered to families

144

Families accessed a consultation session
with a Therapeutic Social Worker

82

Adopted Adults received an Access
to Records service

Our Ethos

We know every child is different. There is no 'one size' of support that fits all.

This ensures our support services are uniquely adapted to each individual family's needs. It is recognised that working with children and young people who have experienced early trauma, requires specialist knowledge and expertise. Parenting and supporting such children can also present challenges and require significant emotional resilience. In order to support and facilitate change, we provide evidence-based interventions that best meet the needs of children and their families.

Our Team

We have a large multi-disciplinary team including highly trained therapeutic social workers, therapists, clinical psychologists, and occupational therapists. You can find out more information about the team here:

www.adoptionmatters.org/about-us/our-team/#cfas

We operate across our full coverage area, with our CFAS team and therapists working remotely throughout all regions, including the North West, Stoke, Staffordshire, Shropshire, Yorkshire and the Humber and parts of the North East and Lincolnshire.

We can sometimes cover work outside of these areas, contact us for an informal discussion.

Our Services

Webinars, Workshops & Training Programmes

We can deliver a wide range of topics either online via Zoom, in person or pre-recorded for both families and professionals. They include: Theraplay, Connecting through Play, Advanced Play, Brain to Brain and PACE, Therapeutic Life Story & Identity, Attachment and Education, Parenting Siblings, Sensory Processing, Shame and Self Worth, Nurtured Heart, Impact of Loss and Trauma, Primary Trauma, Blended Families, Transitions, Managing Relationships and Family Dynamics, Supporting Individual Needs, Behaviour is Communication, Parenting Teenagers, Caring for Yourself as well as your Children, Responding to Social Media, Child to Parent Violence, Self Harming, Sexualised Behaviours and Sexual Exploitation, Sleep, Eating and Diet, Toileting, Looking After Children with Different Ethnicities.

Feedback Matters

What professionals say about us

“

Useful, thought provoking, insightful and child-focused training as always.

Good service and can be sure of timely responses and proposals for work / contracts.

Go above and beyond, would highly recommend.

What families say about us

“

My husband and I were incredibly apprehensive about this course. However, we did not need to be at all. The content and delivery were thorough and we have practiced many elements that we learned and it has been very beneficial in the parenting of our children, Thank you.

Excellent staff who made for a great welcome and put 110% heart, emotion, knowledge and experience into their work.

Very human in the way they acknowledged the difficulties we are experiencing. I felt understood.

After some very friendly introductions and some vocal warm ups, we are transformed into Popstars within the hour. You can physically see the kids grow in confidence and self-esteem and parents let go and throw themselves into it.

This is a very special place. Social workers really 'get it' and are non-judgemental. They are proactive and don't wait for the family to be in crisis.

What Ofsted says about us

“

Access to adoption support is impressive. The agency has a specialist adoption support service (CFAS), which is proactive in ensuring that the right support is available when it is needed. The service offers a range of support initiatives, from signposting to other, more appropriate, supporting agencies and attending webinars, to more intensive packages of sensory processing support, delivered by occupational therapists, and individualised therapeutic parenting support. The service has a range of skilled workers to ensure that children's different needs can be met. Adopters are exceptionally positive about this support.

One adopter said, '[Name of therapist]'s expertise and professionalism has changed our lives and we will be forever grateful to them.
